

Cast Iron Performance

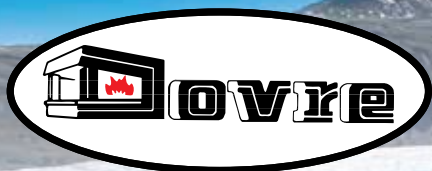

WOODBURNING • MULTI-FUEL • GAS • ELECTRIC

Cast Iron Performance

Dovre takes its company name from a range of Norwegian mountains, and has more than 60 years' experience in manufacturing stoves and fireplaces for the harshest of Arctic winters.

The Dovre Range...

Traditional Wood & Multi-fuel Stoves.....6 - 21

A comprehensive collection of classically designed stoves, incorporating the unmistakable atmosphere of a real log or smokeless fuelled fire. From the compact 250 to the grander 760CB, that true traditional ambience can be perfectly attained in rooms of all sizes.

Vintage Contemporary Wood Stoves.....22 - 27

For those with a more contemporary taste, the eye-catching Vintage range with distinctive retro styling, brings woodburning stoves right into the heart of modern living.

Astroline Contemporary Wood & Multi-fuel Stoves 28 - 41

With superb modern styling, the Astroline series of woodburning & multi-fuel stoves takes the design of cast iron stoves into the 21st Century. The high elevations make a bold style statement but they also permit extra heating capacity.

Contemporary Wood & Multi-fuel Cassette Fireplaces42 - 45

Designed to create a striking centrepiece at the very heart of your home, Dovre cassette fireplaces impress with their high levels of heating efficiency and clean geometric lines. With a double-sided cassette your fire can even be enjoyed from two rooms at once!

Traditional Wood & Multi-fuel Insert & Canopied Fireplaces.....46 - 55

At home in both traditional and contemporary homes this collection of fireplaces can be built either into a fireplace or combined with optional canopies to create a stunning centrepiece for large fireplace openings and inglenooks.

Traditional Gas Stoves 56 - 59

With their traditional styling, Dovre Gas stoves combine the classic atmosphere of a real log or coal stove with the added convenience and ease of a modern gas fire. They can also benefit from the latest optional remote control systems that allow complete control from the comfort of your sofa.

Traditional Electric Stoves60 - 63

There are two models in the range, incorporating our unique VeriFlame™ technology, and boasting a choice of glow and flame effects, individually hand-painted logs and full remote control. With superior realism and up to 2kW of heat output, a Dovre Electric stove will always be a pleasure to come home to.

The Dovre Difference...

Durable and Reliable

Cast iron has many advantages – durability, better heat retention and longevity, as well as the ability to be crafted into a huge variety of shapes and textures, giving aesthetic beauty and immediate appeal whether your interior style is traditional or contemporary.

Over the decades, Dovre's product range has been continuously developed and refined. Today, its woodburning and multi-fuel stoves offer advanced cleanburn technology for improved combustion efficiency and care for the environment. Its airwash systems help keep the door glass clean, whilst there are also many models fuelled with the convenience of gas or electricity.

Whatever your choice - wood, multi-fuel, gas or electric - your Dovre stove or fireplace will be beautifully reliable and built to the uncompromising standards you would expect from our Scandinavian heritage.

Wood and Multi-fuel Stoves and Fireplaces

Dovre stoves and fires are designed to burn wood and smokeless fuels and have been independently tested to exacting standards for safety, heating efficiency and emissions. The 250, 225, 525, 500, 700 and Vintage models have also been approved for the burning of wood in Smoke Control areas*.

Wood – Wood is the better fuel in environmental terms being carbon neutral, as the amount of carbon dioxide released into the atmosphere is approximately the same as that absorbed by the tree during growth. It is also a renewable resource, particularly when derived from plantations and cultivated woodland. For optimum results, we recommend logs should be seasoned for 2 years or more to achieve a moisture content below 20%†. This will not only give up to twice the output of freshly felled timber but help avoid a build up of tar in your flue. Furthermore, if you can obtain hardwood logs this is better still, as they will have around twice the calorific value of softwoods, of equivalent weight.

Solid fuels – anthracite and manufactured smokeless fuels can be burnt on multi-fuel models which feature a fixed or riddling grate. Please note, however, that bituminous coal or petroleum based fuels must never be used on your stove.

Gas Stoves

All Dovre gas stoves are available with natural gas or LPG and, depending on model, feature a highly realistic coal or log effect fire. These highly efficient stoves are available as manual operation and

have the option to upgrade to either a standard remote, allowing heat regulation once the pilot light has been lit manually, or a programmable remote with additional thermostatic and timer controls.

Electric Stoves

A Dovre electric can be as easy to install as plugging in and switching on! Both the 280 and 425 feature our unique VeriFlame™ technology with low energy LED illumination and hand painted fuel bed. With the heater discreetly located underneath, plus feature a remote control allowing you to adjust the heat between off, 1kW and 2kW in addition to the VeriFlame™ effects which can run without any heat at all.

Warranty Information

Your Dovre retailer will provide you with a Five Year Warranty for your new stove castings and a Two Year Warranty on steel parts and gas and electric 'engines' used in stoves and fires. Full details are on our website at www.dovre.co.uk

*250, 225, 525 & Vintage stoves are approved when fitted with a Smoke Control Kit.

†All efficiencies quoted in this brochure are for seasoned wood with a moisture content of less than 20%

Expert Retailer Network

We take great care to ensure that our stoves and fireplaces are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room and advising on your flue type) and design; and ensure that you select the most appropriate product for your home. They will also be able

to advise on or assist with the installation process as well as help provide any after-sales support and servicing of your appliance that you may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from nationwide online sales and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Further, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

The Dovre 250 multi-fuel is designed to suit a huge range of applications from a cottage kitchen to a modern town-house living room, especially as it is approved for smoke control areas. It has a large glass door panel and ornately cast side panels both adding to the visual appeal. Manufactured from only premium grade cast iron, the 250 is at home whether burning wood (logs up to 30cm long may be used) or a variety of solid fuels, and is equipped with a sophisticated airwash system to keep the door glass cleaner. Matt black woodburning and woodburning/smokeless fuel versions with cleanburn for improved heating efficiency are also available. Shorter legs are an option on the 250CBW model.

The Dovre 500 is a masterpiece of casting proficiency and up-to-date technology. Not only does it offer classic stove appeal but it also features a separate ashpan door, for easier removal of ash, and a choice of four different versions. The multi-fuel model is available with either a fixed grate or a riddling grate. The woodburner, on the other hand, incorporates a special cleanburn system that is so effective it has been approved by the Department of the Environment for use in smoke control areas, and has the added option of a lattice door.

Dovre 640CB woodburning stove. Shown with Claremont antique white marble mantel available from Stovax.

640CB

Woodburning Stove

This well-proportioned stove features a side loading door as well as a front glass door and separate ashpan door. The side door allows logs of up to 50cm in length to be loaded into the stove so that less sawing is required when owners are providing their own timber. There is also a cleanburn system for improved fuel efficiency, an airwash system to help keep the door glass clean and a choice of top or rear flue outlets.

1CB

Astroline Wood Stove

With superb modern styling, the Astroline 1CB takes the design of cast iron stoves into the 21st Century. The high elevations not only represent a style statement but they also permit extra heating capacity, as logs up to 37.5cm in length can be positioned in a 'wigwam' shape and provide up to 10kW of warmth; ideal for larger, open plan living spaces.

Further, the Astroline 1CB features all of Dovre's latest cleanburn technology, including a secondary combustion system to reduce soot emissions and to improve fuel efficiency, whilst a powerful airwash system helps to keep the huge ceramic glass panel clean. Together, they create exceptional flames and a wonderful view of the fire.

- All cast iron construction
- Woodburner
- Cleanburn and Airwash system
- Maximum heat output: 10kW
- High efficiency: up to 78%
- Top or rear flue exit
- Flue diameter: 150mm

3CB

Astroline Wood & Multi-fuel Stoves

With sleek and contemporary styling, Dovre's new Astroline 3 not only offers you an exceptional view of the fire but also a choice of two distinctive variants as well as either woodburning or multi-fuel versions of each. The state-of-the-art cleanburn combustion system provides stunning flames within the firebox and these can be seen from more than 180° thanks to the angled glass side panels and the large main window. Combustion and efficiency is also aided by an outside air connection which can reduce draughts within your room.

Choose from the Astroline 3CB with a pedestal or, alternatively, the design with a 'wood store' base.

- All cast iron construction
- Woodburning or multi-fuel versions
- Cleanburn and Airwash system
- Outside combustion air facility
- Maximum heat output: 10kW
- High efficiency: up to 75%
- Top or rear flue exit

DV-K2100	Optional multi-fuel basket

FINISHES

Traditional
Matt Black

Note: a standard 13amp domestic electricity supply is also required for this appliance to power the built-in electric fan.

This large bow-fronted cassette features a sophisticated airwash system to ensure you enjoy a superbly panoramic view of the fire. Although a dedicated woodburner, the multi-fuel basket option also allows you to burn smokeless fuels should you wish. Whichever your preference, the 2520 will heat your room with a gentle stream of warm convected air or, by using the integral electric fans, a powerful flow of thermostatically-controlled heat.

- All cast iron construction
- Woodburner and multi-fuel option
- Cleanburn and Airwash systems
- Fan-assisted convection system with thermostatic control
- Maximum heat output: 11kW
- High efficiency: up to 80%
- Flue diameter: 150mm
- Weight: 190kg

Dovre 1800 fireplace with optional canopy, plinth and side panels

FINISHES

Traditional
Matt Black

Complete with integral riddling grate, the Dovre 2000 fireplace has been designed to burn wood or a variety of smokeless fuels. It also has the option of a back boiler that can provide hot water when the fire is being used.

- All cast iron construction
- Multi-fuel
- Suitable for use in smaller inglenooks (with optional steel canopy, base plinth and side panels) or as a built-in fireplace
- Suitable for use with a room heating convection system
- Maximum heat output: 11kW
- High efficiency: up to 71%
- Flue diameter: 186mm
- Weight: 165kg

Dovre 2300CB fireplace with optional canopy, plinth and side panels

2300CB

Woodburning Fireplace

Dovre 2300CB as a built-in fireplace

PRODUCT CODES

DV-2300W	Matt black woodburner with cleanburn and airwash system
Accessories	For canopies, base plinths and side panels, see pages 66 & 67

FINISHES

Traditional
Matt Black

As a dedicated woodburner the Dovre 2300CB is equally at home as a built-in fireplace with a sophisticated convection system or in a dramatic inglenook. Open the doors and enjoy the full ambience of a real fire, close the doors and a sophisticated airwash system keeps the glass cleaner for a full view of the fire. With these features and the inclusion of an aerated baffle for greater efficiency and lower emissions, the 2300CB takes crackling log fires into a new era.

- All cast iron construction
- Cleanburn woodburner
- Suitable for use in smaller inglenooks (with optional steel canopy, base plinth and side panels) or as a built-in fireplace
- Suitable for use with a room heating convection system
- Maximum heat output: 9kW
- High efficiency: up to 77%
- Flue diameter: 186mm
- Weight: 150kg

DV-2400CBPAN	Matt Black woodburner with cleanburn, airwash and Panorama door
Accessories	For canopy and side panels see pages 66 & 67.

FINISHES

Traditional
Matt Black

This model can either be built in to a fireplace or combined with an optional canopy to create a stunning centrepiece for large fireplace openings and inglenooks. With a 9kW capacity and suitable for wood and smokeless fuels, the 2400CB incorporates a state-of-the-art cleanburn system and is offered in either standard or Panorama versions. The standard model features bi-fold doors with four windows whilst the Panorama has a single door with a large, elegantly curved window for maximum view of your fire.

- All cast iron construction
- Cleanburn woodburner
- Suitable for use in smaller inglenooks (with optional steel canopy, base plinth and side panels) or as a built-in fireplace
- Maximum heat output: 9kW
- High efficiency: up to 72%
- Flue diameter: 188mm
- Weight: 130kg

2700

Woodburning Fireplace

Dovre 2700 built into a fireplace

PRODUCT CODES

DV-2700W	Matt black woodburner with airwash system
Accessories	For canopies, base plinths and side panels see pages 66 & 67

FINISHES

Traditional
Matt Black

Whether you install the 2700 a part of an inglenook setting or build it into a fireplace this classic Dovre model allows you to enjoy all the character of a real fire with the doors open, or a slower, more efficient combustion with the doors closed. Inserted into a fireplace setting, you can even use the special convection chamber to duct warm air to outlet grilles above the fireplace or even distribute it to other parts of your home.

- All cast iron construction
- Woodburner
- Suitable for use in smaller inglenooks (with optional steel canopy, base plinth and side panels) or as a built-in fireplace
- Suitable for use with a room heating convection system
- Maximum heat output: 10kW
- High efficiency: up to 77%
- Flue diameter: 186mm
- Weight: 135kg

Dovre 280 Gas balanced flue version with log-effect fire.

280

Gas Stoves

The 280 Gas blends Dovre's pedigree in casting with the latest gas flame technology. Choose from either realistic coal or log-effect fuel effects, the latter sporting a new glowing ember bed feature for the ultimate real fire ambiance. Both fuel effects are available in conventional flue versions, whilst the log effect is also available in a balanced flue model.

The 280 comes with manual control or, for total ease and convenience, upgrade to one of two command remote controls.

- All cast iron construction
- Balanced and Conventional flue with realistic log-effect fire
- Conventional flue models with coal-effect
- Colour matched enamel flue pipe available
- Optional remote controls
- High Efficiency: up to 81%
- Max. heat output: 3.6kW (CF)/3.5kW (BF)
- Ignition system requires no electricity supply
- Top or rear flue exit: 125mm (CF)/152mm (BF)
- LPG and Natural Gas versions available
- Automatic safety shutdown in the event of pilot light failure or flue blockage
- Weight: 50kg (CF)/54.4kg (BF)
- Electric version available, see pages 60 - 61

280

Electric Stoves

If you do not have a chimney or want to locate a stove in a space where it would be difficult to install a flue then the electric version of the 280 could be the answer. Once plugged in to a normal 13amp socket, you simply use the remote control to turn it on or off, adjust the heat between the 1kW or 2kW settings or to select one of three flame brightness levels using the unique VeriFlame™ technology. The additional option of a subtle blue flame effect on the highest level makes the stove's 'log' fire one of the most authentic available. It truly is real fire ambience at the press of a button!

Dovre 280 Electric in traditional Matt Black

- All cast iron construction
- Exceptionally realistic log-effect with hand painted fuel bed and logs
- Choose from three brightness levels using unique VeriFlame™ technology
- Flame effect can be operated with or without heat output
- High Efficiency: 99%
- Discreetly concealed fan heater with 1kW and 2kW settings
- Requires no flue, hearth or chimney
- Plugs into standard 13amp socket
- Safe to use in most locations around the home or conservatory
- Can be moved from room to room
- Weight: 50kg
- Gas version also available, see pages 56 - 57

Accessories

To help you get the best performance from your stove or fireplace and keep it in good condition, inside and out, Stovax (Dovre's distributor in the UK and Republic of Ireland) offers a wide range of cleaning and maintenance products. Stovax also supplies a wide variety of fireplace accessories. Your Dovre retailer will be able to give you full details or you may view the complete range at www.stovax.com.

Fireplace, Stove & Hearth Accessories

Included in the brochure is an outstanding selection of fireplace and stove tools. Expertly crafted with a variety of styling options and available in wrought iron, black, brass and chrome finishes, this exquisite range of accessories comprises individual tools alongside complete companion sets. There are also a number of classically designed pails, scuttles and holders for your coals, logs and kindling – functional and stylish accompaniments to your Dovre stove or fireplace.

Contemporary Steel Log Holders

For more modern interiors, Stovax has developed a range of contemporary log holders in matt black steel. These are highly attractive and a superb pairing to Dovre's range of contemporary Vintage and Astroline series stoves.

Product Improvement, Safety Information & Warranty

Dovre reserves the right to amend any specifications herein or to make any product design changes. Please note that, due to studio lighting and the limitations of the printing process, colour reproduction of enamel finishes may vary from actual product. Please consult your Dovre retailer for more accurate colours.

Your Dovre retailer will provide you with a Five Year Warranty for your new stove castings and a Two Year Warranty on steel parts and gas & electric 'engines' used in stoves and fires. The continuation of the warranty is dependant on your appliance being serviced by an appropriately qualified person 12 months after installation and annually thereafter. Please note, these warranties exclude certain consumable and naturally wearing parts such as grates, baffles, firebricks and glass. Full details are on our website at www.dovre.co.uk Furthermore, by law all installations also require a Carbon Monoxide Monitor be supplied and fitted.

Please note that all parts of these stoves and fires, particularly the glass panel in the door, become extremely hot during operation and can result in serious injury and burns if touched. It is therefore recommended that a fireguard complying with BS 8423:2002 is used in the presence of young children, the elderly or infirm.

Flue Pipe

Matching Enamelled Flue Pipe

For the fully colour co-ordinated installation of your stove, and optimum performance, we offer high quality enamel coloured flue pipe. However, please note that due to the different production processes we cannot guarantee a perfect match between pipe and stove.

The flue pipe diameters required for each model are given on each of the product pages.

All fire and flame photography has been taken from genuine products; however, the exact appearance of the flame picture for any appliance will vary depending on the nature of the flue type, installation surroundings, local geographical features and the way in which the appliance is operated. Some of the room sets in this brochure have been created for aesthetic purposes. When designing your own installation, please observe the minimum distance to combustible materials as stated in the installation instructions.

Please note: The operation and appearance of gas appliances depends on variable factors such as the gas pressure supplied.
